PUMP products

**ALL PRIME PUMPS**
Heavy duty self-priming centrifugal pumps used for applications such as sewage, handling solids, industrial effluents, & water.

**ANSIMAG/SUNFLO/SUNDYNE**
Non-metallic, magnetically driven sealless process pumps (ANSI, sub ANSI, & Inline). High pressure centrifugal pumps. Robust API process pumps.

**CALPEDA**
Centrifugal pumps of various designs for OEM, commercial, and industrial applications.

**CHEMPUMP/TEIKOKU**
Sealless canned motor pumps for hazardous fluids & high temperature applications. Industrial duty metering pumps. LE series ANSI pumps.

**DEAN/FYBROC**
ANSI chemical process and high-temperature pumps for heat transfer fluids. Hot water pumps. Corrosion resistant FRP centrifugal pumps: ANSI, vertical, horizontal, self-priming, close-coupled and magnetic drive.

**dP Pumps**
Stainless steel in-line multi-stage centrifugal pumps capable of flows up to 600 gpm and pressures up to 900 TDH.

**EAGLEBURGMANN**
A world leader in Mechanical Seals for Liquid & Gas Services combining Unparallel Robustness of faces and components with Simplicity of Design for Optimum Cooling and Long Seal Life.

**ENVIROGEAR**
Internal gear pumps in cast iron, carbon steel, and stainless steel construction available with triple lip seals, mechanical seals, and innovative sealless mag-drive configurations.

**GRISWOLD**
ANSI chemical process, end suction, and self-priming centrifugal pumps.

**HYDRA-CELL**
Sealless design positive displacement pumps. Ideal for corrosive and abrasive applications. Flow rates from 0.1 to 37 gpm and pressures to 2500 psi. Dry run and dead head capabilities.

**LIQUIFLO CHEMICAL PROCESSING PUMPS**
External gear pumps. 316SS and higher construction. 0.01 GPM to 40 GPM. Sealed or mag drive / sealless design. Stainless steel magnetically driven ANSI centrifugal pumps.

**LUTZ-JESCO**
Complete line of magnetically, mechanically, hydraulically actuated positive displacement chemical metering pumps. Chemical Feed Systems. Drum Pumps.

**METSO MINERALS**
Slurry pumps in hard metal and rubber lined. Horizontal and vertical configurations.

**NETZSCH PUMPS**
NEMO progressing cavity pumps are utilized in various industries to convey many types of fluids in a continuous, low pulsating manner, while maintaining an accurate flow.

**PACO PUMPS / GRUNDFOS**
End suction, split case, in-line pumps, and complete booster packages.

**WALCHEM**
Solenoid and diaphragm metering pumps, controllers and sensors.

**WARREN RUPP (SANDPIPER)**
Air operated and electric operated, double diaphragm pumps. Flows 0-250 GPM, 0-220 PSI.

**WAIKESHA CHERRY-BURRELL**
Rotary positive displacement and centrifugal pumps. Dispersion equipment including homogenizers, colloid mills and shear pumps.

**WILFLEY**
Centrifugal pumps with advanced seal technology for abrasive and corrosive pumps. Chemical pumps, chemical slurry pumps and slurry pumps.

**ZENITH**
Precision gear metering pumps & systems. High accuracy and pulsation-free output.

---

**PUMP repairs | PUMP parts**

E.W.Process has a service center that performs pump repairs, and we can supply parts for a wide variety of pump manufacturers.
FILTER products

EATON
Single and multi-bag housings, premium and heavy duty filters bags (formerly Hayward Filtration), Automatic backwash, self-cleaning mechanical filters, bag and cartridge filters (formerly Ronningen-Petter).

WESTECH
Water and wastewater process equipment including clarifiers, screens, UF, and RO filters. Complete turnkey waste water treatment plants.

MIXING products

FUSION FLUID EQUIPMENT
Agitators ranging from 1/10 HP to 600 HP available in top entry, side entry, and bottom entry configurations for the industrial, chemical, sanitary, biotech, and pharmaceutical markets. Also available are mixer lift stands, ribbon blenders, and automated turnover systems.

SULZER
Static in-line blending, dispersion, and reaction; Heat exchangers for viscous or heat sensitive products.

PROCESS SPECIALTY products

ALFA LAVAL / GAMAJET
Tank cleaning technology that provides efficiency and effectiveness with a Gamajet machine, Use Less water/chemicals and time with Gamajet.

BIAR
Sampling valves and systems for liquids and gases in the chemical process industry specializing in toxic, corrosive, and explosive applications.

SUNDAE INC
Custom Engineered Skid Packages. Pulp & paper skids including emulsifiers, starch cookers, liquid and dry polymer systems.

CALFLO
Heat transfer fluids for gas fired and electrically heated thermal fluid heaters that provide enhanced thermal and oxidative stability.

SIGMA THERMAL
Industrial process heating systems and automation. Thermal fluid systems, direct fired heaters, process bath heaters, waste heat recovery, electric process heaters, and complete system automation and process control.

COOL FIT PLUS
Pre-Insulated Plastic piping for superior efficiency and critical secondary cooling and refrigeration.

SUNNYDE
Process Gas Compressors: Single and multi-stage integrally geared process gas compressors for industrial, chemical and API-617 services.

+GF+ ENGINEERED PIPING SYSTEMS
Corrosive Resistant and High Purity Thermoplastic piping systems for pressure, drainage, and double containment systems in Laboratory, Chemical, and Pharmaceutical applications.

SUSSMAN ELECTRIC BOILERS
Sussman Electric Boilers specializes in steam and hot water generators for industrial, commercial, and specialized applications.

MILTON ROY/PPPI
Diaphragm compressors up to 400 cfm and 30,000 psi for cylinder filling, fuel cell technology, or transfer of high purity or dangerous gases under pressure without contamination or leakage. Pre-engineered stirred reactors, magnetic mixers, custom reactors and pressure vessels, and super critical fluid systems.

WESTECH
Water and wastewater process equipment including clarifiers, screens, UF, and RO filters. Complete turnkey waste water treatment plants.

PAUL MUeller COMPANY
Accu-Therm plate heat exchangers and Temp-Plate heat transfer surface type heat exchangers.
