# PROLINE 100<sup>™</sup> Series SE Multi-Bag Filter Housing

Eaton's PROLINE 100 Series SE multi-bag filter housing is userfriendly, cost-effective and designed for high volume applications and processes demanding frequent filter bag change-outs. Ideal for batch process runs and high dirt load applications. bag filter housing with QIC-LOCK™ opening mechanism

High-volume multi-

This multi-bag filter housing with the QIC-LOCK opening mechanism is the most competitively priced multi-bag filter housing Eaton has to offer. Units are available in 4, 6 and 8 filter bag configurations and come standard with filter bag size 02 stainless steel restrainer baskets.

#### **Features**

- 100 psi (6.9 bar), non-code bag filter housing, for a wide variety of filtration applications
- Low profile design with side inlet and tangential outlet provides easy and full drainage and reduces housing height to make filter bag change-outs easier. No need for ladders, stools or catwalks

PROLINE 100 Series SE multi-bag filter housing with 8 filter bag capacity

TIN

- Positive O-ring sealing provides bypass-free, safe filtration while the unique 3-point hold down ensures a high-quality seal between each filter bag and the housing body
- QIC-LOCK opening mechanism allows for safe, easy and fast filter bag change-outs for higher productivity and lower operating costs. Ideal for processes requiring frequent filter bag changes such as batch applications
- Automatic safety interlock for venting housing (cover cannot be opened if housing is under pressure)
- A counter-balanced, spring-assisted cover lifting mechanism allows for quick and easy opening of even large covers by one person

- 304 stainless steel construction with bead-blast, external finish
- 150# RF flanged inlet and outlet ports for side inlet and tangential outlet configuration
- Heavy-duty stainless steel mounting legs are included

## Options

- Available as in-line or loop piping configuration (shown)
- Buna-N<sup>®</sup> O-rings for the cover are standard. Viton<sup>®</sup> or EPDM are available

Viton<sup>®</sup> is a registered trademark of E. I. du Pont de Nemours and company.

Opening the housing for change-out is simple and quick. Disengaging the safety interlock releases system pressure.

A few turns of the hand wheel opens the V-clamp collar so the cover can be lifted.

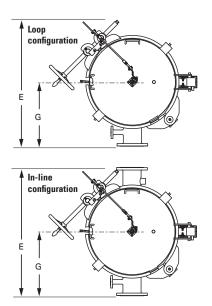

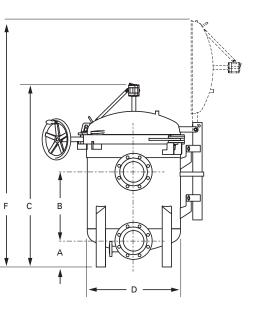

The counter-balanced hinge allows the cover to be lifted with ease and stay in any position for filter bag change-out.

### Applications

Coarse filtration > 500 $\mu$ m	~
Medium filtration > 10 µm	~
Fine filtration < 10 µm	~
Pre-filtration	~
Safety filtration	~
High volume	~
Batch filtration	~
Circuit filtration	~
Continuous filtration	
Solvents, paints	~
Fats and oils	~

Solvenis, paints	~
Fats and oils	~
Catalyst, activated carbon	
Acids, bases	~
Petrochemicals	~
Water, waste water	~
Chemical industry	~
Pharmaceuticals	
Metal cleaning	¥
Automotive	~
Electronics	
Food and beverage	
Paint and lacquer	V
Water treatment	~
Galvanic industry
