- Mixers and Blenders

### FG Fluid Applications:

- Molasses
- Corn Syrup
- Vegetable Oil
- Shortening
- Tallow, Lard
- Peanut Butter
- Candy Mass
- Gels
- Animal Feed Ingredients
- Mash

**Before**

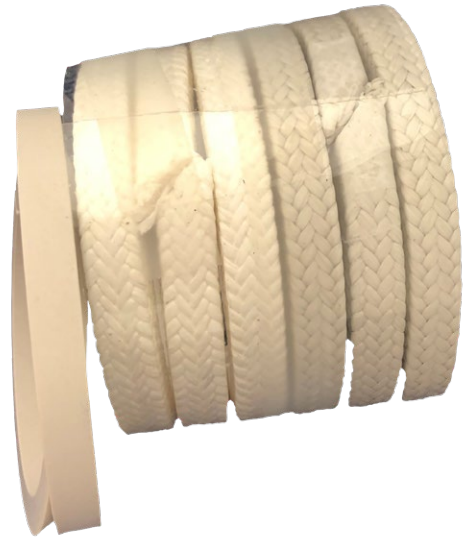

**After**

## Features:

- Two-Piece Teflon® Wedge Seal fitted to the bottom of the stuffing box
  - Provides close clearance flow restriction at the bottom of the stuffing box, and
  - Filters out abrasive solids that otherwise would damage the shaft and/or packing.
  - Keeps worn bits of packing from getting into the process fluid.

- Mixed Media Food Grade Packing Sets
  - Self-lubricating packing next to the gland where effective sealing work is done, and
  - Dense tightly woven Intermediate rings transfer force to keep the two-piece wedge seal closed.

## Specialized Grades of Wedgee™ Packing Sets

- Industrial & Abrasive Duty
- Food Grade (FDA compatible materials)
- Chemical Duty (Extended pH range)
- High Temperature (Over 500° F / 260° C)
- Optional Configurations with Lantern Ring
