MUNICIPAL MARKET SOLUTIONS

PUMP PRODUCTS

ANSIMAG
Corrosion-resistant, sealless, magnetically driven pumps for chemical transfer applications such as sodium hydroxide and sodium hypochlorite.

ATLAS COPCO
Submersible pumps for dewatering and sludge pumping applications with flows up to 6100 gpm and heads to 325 feet. Engine driven portable surface dewatering pump systems with flows up to 3740 gpm and heads to 302 feet.

EAGLE BURGMANN
Global provider of reliable mechanical seal solutions. Products range from rugged seals for submersible pumps and lift stations, to sealing for high solids digester circ and press pumps, fans & blowers and general water services at all pressures.

FYBROC
Corrosion-resistant, sealed and sealless pumps for chemical transfer applications such as concentrated sulfuric acid.

HYDRA-CELL
Sealless virtually pulse-free chemical metering and transfer pumps.

THOMAS PUMPS
Heavy duty self-priming centrifugal pumps for sewage, solids handling, effluent, and water applications. Replacement rotating assemblies available for quick change.

WARREN RUPP
Air operated and electric operated, double-diaphragm pumps. Flows up to 250 gpm. Heavy duty ball and flap valve designs available for waste treatment applications.

MAINTENANCE & REPAIR
OF ALL MAJOR PUMP BRANDS

E.W. Process provides repairs, upgrades, failure analysis, and laser alignment to keep your pumps operating efficiently and economically.

YOUR PARTNER IN PROCESS SOLUTIONS.

FILTER PRODUCTS

EATON

Manual and automatic strainers for raw water intake and other water and chemical filtration applications.

AGITATORS & STATIC MIXER PRODUCTS

FUSION FLUID

Agitators for waste treatment applications such as pH neutralization, coagulation & flocculation, chlorination, and sludge blending.

PROCESS SPECIALTY PRODUCTS

ALFA LAVAL/ GAMAJET

Wet well and tank cleaning machines used to clean basins without need for confined entry permitting. Gamajet machines save time, money, and improve safety.

SNYDER INDUSTRIES

ASTM rated tanks for bulk chemical storage. HDLPE and XLPE single wall and double contained tanks up to 18,800 gallons with customizable with fittings. Chemical storage applications such as sodium hypochlorite and sulfuric acid.
